

Would you like to

learn to work in a particular social environment?

design a product from idea to market?

experience the beauty of Ayvalik as a resident?

experience how a social enterprise works?

learn traditional handcraft techniques?

learn from and create with fellow resident artists?

learn and experience delicious cooking?

learn about social intervention techniques?

learn about Turkish society and culture?

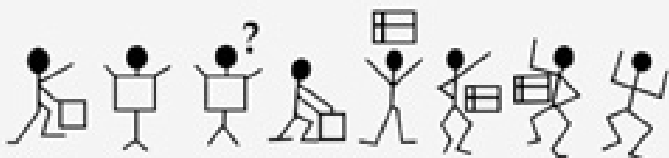

learn about the business side of eco-design?

çöp(m)adam*

is calling for

- * designers experienced or interested in ethical fashion, product design and sustainability;
- * professionals in design, architecture, finance, social work or handcraft;
- * students looking for an internship,

to set up pilot residencies of mixed skill workgroups for one-month sessions for the summer of 2016 Ayvalik, on the west coast of Turkey. The aim of the program is to work on new products and ideas at çöp(m)adam (eg. creating new prototypes, marketing graphics, interior, media design, etc.) while you are able to learn by understanding the model and the community. The goal of the residency is to create a fluctuation of incoming ideas and new perspectives by people coming from different creative practices with a conscious social and environmental attitude.
